fixed weight price index published by the Department of Commerce, during the period since the last rate increase for that product or service.

C3 Rate changes for electric power, power transmission, and other products or services provided by Power Marketing Administrations that are based on changes in revenue requirements if the operations of generation projects would not remain within normal operating limits.

C4 Reconstructing (upgrading or rebuilding) existing electric powerlines more than approximately 20 miles in length or constructing new electric powerlines more than approximately 10 miles in length.

C5 Implementation of a Power Marketing Administration system-wide vegetation management program.

C6 Implementation of a Power Marketing Administration system-wide erosion control program.

C7 Establishment and implementation of contracts, policies, marketing plans, or allocation plans for the allocation of electric power that do not involve (1) the addition of new generation resources greater than 50 average megawatts, (2) major changes in the operating limits of generation resources greater than 50 average megawatts, or (3) service to discrete new loads of 10 average megawatts or more over a 12 month period. This applies to power marketing operations and to siting, construction, and operation of power generating facilities at DOE sites.

C8 Protection, restoration, or improvement of fish and wildlife habitat, fish passage facilities, and fish hatcheries if the proposed action may adversely affect an environmentally sensitive resource.

C9 Field demonstration projects for wetlands mitigation, creation, and restoration.

C10 [Reserved]

C11 Siting, construction (or modification), operation, and decommissioning of a low- or medium-energy (but greater than approximately 100 MeV primary beam energy) particle acceleration facility, including electron beam acceleration facilities, and associated beamlines, storage rings, colliders, and detectors for research and medical purposes, within or contiguous to an already developed area (where active utilities and currently used roads are readily accessible).

C12 Siting, construction, and operation of energy system prototypes including, but not limited to, wind resource, hydropower, geothermal, fossil fuel, biomass, and solar energy pilot projects.

C13 Approval or disapproval of an application to import/export natural gas under section 3 of the Natural Gas Act involving minor new construction (other than a cogeneration powerplant), such as adding new connections, looping, or compression to an existing natural gas pipeline or converting an

existing oil pipeline to a natural gas pipeline using the same right-of-way.

C14 Siting, construction (or expansion), operation, and decommissioning of wastewater, surface water, potable water, and sewage treatment facilities with a total capacity greater than approximately 250,000 gallons per day, and of lower capacity wastewater and surface water treatment facilities whose liquid discharges are not subject to external regulation.

C15 Siting, construction (or expansion), and operation of research and development incinerators for any type of waste and of any other incinerators that would treat nonhazardous solid waste (as designated in 40 CFR Part 261.4(b)).

C16 Siting, construction (or modification to increase capacity), operation, and decommissioning of packaging and unpacking facilities (that may include characterization operations) and large storage facilities (greater than approximately 50,000 square feet in area) for waste, except high-level radioactive waste, generated onsite or resulting from activities connected to site operations. These actions do not include storage, packaging, or unpacking of spent nuclear fuel. See also B6.4, B6.5, B6.6, and B6.10.

Pt. 1022

D1 Strategic Systems, as defined in DOE Order 430.1, "Life-Cycle Asset Management," and designated by the Secretary.

D2 Siting, construction, operation, and decommissioning of nuclear fuel reprocessing facilities.

D3 Siting, construction, operation, and decommissioning of uranium enrichment facilities.

D4 Siting, construction, operation, and decommissioning of power reactors, nuclear material production reactors, and test and research reactors.

D5 Main transmission system additions (that is, additions of new transmission lines) to a Power Marketing Administration's main transmission grid.

D6 Integrating transmission facilities (that is, transmission system additions for integrating major new sources of generation into a Power Marketing Administration's main grid).

D7 Establishment and implementation of contracts, policies, marketing plans or allocation plans for the allocation of electric power that involve (1) the addition of new generation resources greater than 50 average megawatts, (2) major changes in the operating limits of generation resources greater than 50 average megawatts, or (3) service to discrete new loads of 10 average megawatts or more over a 12 month period. This applies to power marketing operations and to siting construction, and operation of power generating facilities at DOE sites.

D8 Approval or disapproval of an application to import/export natural gas under section 3 of the Natural Gas Act involving major new natural gas pipeline construction or related facilities, such as construction of new liquid natural gas (LNG) terminals, regasification or storage facilities, or a significant expansion of an existing pipeline or related facility or LNG terminal, regasification, or storage facility.

D9 Approval or disapproval of an application to import/export natural gas under section 3 of the Natural Gas Act involving a significant operational change, such as a major increase in the quantity of liquid natural gas imported or exported.

D10 Siting, construction, operation, and decommissioning of major treatment, storage, and disposal facilities for high-level waste and spent nuclear fuel, including geologic repositories, but not including onsite replacement or upgrades of storage facilities for spent nuclear fuel at DOE sites where such replacement or upgrade will not result in increased storage capacity.

D11 Siting, construction (or expansion), and operation of a disposal facility for transuranic (TRU) waste and TRU mixed waste (TRU waste also containing hazardous waste as designated in 40 CFR part 261).

D12 Siting, construction, and operation of incinerators, other than research and devel-

opment incinerators or incinerators for non-hazardous solid waste (as designated in 40 CFR part 261.4(b)).

Subpart A—General

§ 1022.1 Background.

(a) Executive Order (E.O.) 11988—Floodplain Management (May 24, 1977) directs each Federal agency to issue or amend existing regulations and procedures to ensure that the potential effects of any action it may take in a floodplain are evaluated and that its planning programs and budget requests reflect consideration of flood hazards and floodplain management.
